

The GST Opportunity

Companies that can win big thanks to the introduction of GST

Index Value

321.73

Moderate Risk

CAGR

23.55%

smallcase rationale

GST is now the only indirect tax levied on the supply of a majority of goods and services, replacing service tax, VAT, octroi, etc. GST is the biggest tax reform to be implemented in India in decades Organised players in unorganised sectors will gain market share as small unorganised players will not enjoy exemption benefits under GST. This will level the playing field between large and small players Logistics and transportation companies will benefit from lower costs and seamless movement of goods thanks to the abolishment of different state taxes Transportation companies will also face lower labour costs because of reduced checkpoints and warehouses This smallcase comprises companies anticipated to benefit from the implementation of GST.

Methodology

Defining the universe

All publicly traded companies on the National Stock Exchange of India, covering 90% market capitalization, are included in the universe

Research

The smallcase research team does a in-depth research, along with internal presentations and decides the criteria to be used for stock screening

Stock Screening

- Proprietary liquidity filters are applied to remove ill-liquid stocks from the universe
- A special check is applied to remove stocks, where a significant part of the promoter holdings are pledged, to define the investable universe
- All stocks in the investable universes, belonging to the selected sectors are checked individually to ensure perfect theme fit

Weighting

Top points considered while assigning weights to stocks in the smallcase

Revenue derived/expected from smallcase theme-related business activities

Market capitalization of the company

Future estimates and corporate governance record of the company

Rebalance

This smallcase has a quarterly rebalance schedule. Once every quarter, the research team reviews smallcases to ensure the current list of constituents and their weights remain true to the theme

Definitions and Disclosures

Index Value

Index value for all smallcases start from 100 since their inception date and helps investors easily calculate the returns generated since inception or between two specific dates. For example, if the current index value of the smallcase is 150, it means it has generated 50% since its inception. If the index value of a smallcase was 215 last month and the current index value if 245, it means it has generated $(245/215)-1 = 13.9\%$ return in last one month

CAGR

CAGR (compounded annual growth rate) is a useful measure of growth or performance of a portfolio. It represents the growth/return rate that gets you to the current value of the investment, starting from the initial investment value and assuming that investment has been compounding at the fixed growth/return rate for the period.

In simple words, it indicates the annual return generated by the smallcase from the date of inception

Risk Label

Change in value of your investment, due to changing prices of stocks on a daily basis is called the Risk. If the daily change in the investment value of portfolio is too drastic, it means prices of stocks in the portfolio are changing very rapidly. Such portfolios have High Risk.

Every smallcase is categorized into one of the three risk buckets - High Risk, Moderate Risk and Low Risk. This is done by comparing the volatility of the smallcase with market volatility since inception. Investing in High Risk smallcases means that dividend in your investment values can be very sudden and drastic.

Segment

Stocks/ETFs belonging to a smallcase are categorized under different segments. Weightage of a segment is calculated as sum of weights of all stocks belonging to that segment. Suppose 4 stocks, with each having a weight of 10%, belong to the Food Products segment. Then the weight of the Food Product segment in the smallcase will be 40% (4*10)

Review

Rebalancing is the process of periodically reviewing and updating the constituents of a smallcase. This is done to ensure that stocks & weights in the smallcase continue to reflect the underlying theme or strategy

Disclosure

smallcases are only created by SEBI registered Research Analysts, Investment Advisers and Portfolio Managers. Details like Name and SEBI registration number of the creator of this smallcase can be found on the first page of the factsheet.
