

**Halal Street**  
Fundamentally sound Sharia compliant companies with good growth prospects

Index Value  
**264.84**  
CAGR  
**19.28%**

**Moderate Risk**

**smallcase rationale**

Sharia is the religious legal system governing members of the Islamic faith. Equity is the preferred Islamic investment instrument.

- Sharia prohibits investing in companies that deal in adult entertainment, alcohol, cinema & broadcasting, insurance, tobacco, financial services, investment services, gambling, hotels, defence, music, mortgage & lease, interest income and pork
- Sharia also requires companies to comply with specific financial parameters regarding leverage and cash balance

This smallcase has companies that comply with both the sectoral as well as financial restrictions imposed by Sharia.

While 'Halal' means permissible in Islam, any investor regardless of religious affiliation can invest in this smallcase. Ethical investors would also find an investable cause in these Sharia-compliant companies.

**Methodology**

**Defining the universe**

All publicly traded companies on the National Stock Exchange of India, covering 90% market capitalization, are included in the universe

**Research**

The smallcase research team does a in-depth research, along with internal presentations and decides the criteria to be used for stock screening

**Stock Screening**

- Proprietary liquidity filters are applied to remove ill-liquid stocks from the universe
- A special check is applied to remove stocks, where a significant part of the promoter holdings are pledged, to define the investable universe
- All stocks in the investable universes, belonging to the selected sectors are checked individually to ensure perfect theme fit

**Weighting**

Top points considered while assigning weights to stocks in the smallcase  
Revenue derived/expected from smallcase theme-related business activities  
Market capitalization of the company  
Future estimates and corporate governance record of the company

**Rebalance**

This smallcase has a quarterly rebalance schedule. Once every quarter, the research team reviews smallcases to ensure the current list of constituents and their weights remain true to the theme

NIFTY Sm... <b>-17.58%</b>	NIFTY Sm... <b>-13.24%</b>	NIFTY Sm... <b>-4.58%</b>	NIFTY Sm... <b>2.51%</b>

**Definitions and Disclosures**

**Index Value**

Index value for all smallcases start from 100 since their inception date and helps investors easily calculate the returns generated since inception or between two specific dates. For example, if the current index value of the smallcase is 150, it means it has generated 50% since its inception. If the index value of a smallcase was 215 last month and the current index value if 245, it means it has generated  $(245/215)-1 = 13.9\%$  return in last one month

**CAGR**

CAGR (compounded annual growth rate) is a useful measure of growth or performance of a portfolio. It represents the growth/return rate that gets you to the current value of the investment, starting from the initial investment value and assuming that investment has been compounding at the fixed growth/return rate for the period.

In simple words, it indicates the annual return generated by the smallcase from the date of inception

**Risk Label**

Change in value of your investment, due to changing prices of stocks on a daily basis is called the Risk. If the daily change in the investment value of portfolio is too drastic, it means prices of stocks in the portfolio are changing very rapidly. Such portfolios have High Risk.

Every smallcase is categorized into one of the three risk buckets - High Risk, Moderate Risk and Low Risk. This is done by comparing the volatility of the smallcase with market volatility since inception. Investing in High Risk smallcases means that change in your investment values can be very sudden and drastic.

**Segment**

Stocks/ETFs belonging to a smallcase are categorized under different segments. Weightage of a segment is calculated as sum of weights of all stocks belonging to that segment. Suppose 4 stocks, with each having a weight of 10%, belong to the Food Products segment. Then the weight of the Food Product segment in the smallcase will be 40% (4\*10)

**Review**

Rebalancing is the process of periodically reviewing and updating the constituents of a smallcase. This is done to ensure that stocks & weights in the smallcase continue to reflect the underlying theme or strategy

**Disclosure**

smallcases are only created by SEBI registered Research Analysts, Investment Advisers and Portfolio Managers. Details like Name and SEBI registration number of the creator of this smallcase can be found on the first page of the factsheet.
